

# Raptor YLight

The Raptor Y Light full height rotary turnstile is a renewed vision of a full height turnstile with the best price / functionality ratio on the market. The dimensions and design of the turnstile allows installation in places with limited space, indoors, at small checkpoints. The use of the new mechanism gives full confidence in the reliability of this turnstile, guaranteeing unambiguous protection of the perimeter in a wide range of operating conditions. At the same time, the Raptor Y Light turnstile is beautiful and functional - the model has an elegant design, supports integration with most access control systems and does not require frequent maintenance.

## Full-height Y-shaped rotor

minimal dimensions,  
high reliability

## Versatility of connection

integration with most  
access control systems

## Fully automated

a new generation smart  
system turnstile

Our solutions create new opportunities

### Functional features:

- The turnstile is built to withstand the harshest weather conditions, being manufactured from polished stainless steel, brushed stainless steel and painted ferrous metal.
- The blades can be fixed in any position (both three-bladed and four-bladed modifications are possible).
- Reasonable Cost: Due to its size, the Raptor Y Light is priced lower than Max models.

### Design options:

Casing:	polished stainless steel
	brushed stainless steel
	painted black metal
Rotor:	polished stainless steel
	brushed stainless steel
	painted black metal
Mechanism:	electromechanical enhanced

### Overall dimensions:

Case height	2208 mm
Case width	1510 mm
Case depth	1270 mm
Passage width	650 mm
Weight	150kg

### Specifications:

DC power supply	24V ± 15%
Passage power consumption	180 W
Idle power consumption	40 W
Capacity	20 persons/ min and more
Working temperatures	-30...+50°C
Dust and water protection rating	IP 54
